

CX-Gantry[®]

Ports & Borders Inspection Solution

Security & Detection Systems

CX-Gantry combines full coverage, high-resolution imaging and high penetration for clear images and quality detection.

Advanced Technology

The CX-Gantry solution lets you tap into L3's technology for fast, clear visualization of cargo contents.

- 6 MeV high-energy X-ray source provides superior resolution and image quality
- L3's CV 2™ software makes potential threats, contraband and controlled cargo easier to detect and analyze. The comprehensive networking software is a user-friendly, visually based solution that helps analysts quickly and accurately assess cargo contents locally or remotely.
- Optional third-party sensors like radiation detection can be integrated

Applications

CX-Gantry is designed for large freight loads at borders, seaports and high-security locations and facilities.

- Efficient inspection from fully loaded trucks to ISO intermodal shipping containers and automobiles
- Customizable to address a range of unique requirements
- Re-locatable to protect your investment

Performance

L3's powerful cargo inspection system helps you keep commerce moving.

- Full coverage, high-penetration scanning provides high image quality
- Scans the target while maintaining control over scanning speed

Outstanding Service and Support

Recognized worldwide for our commitment to customer service, L3 fields one of the industry's largest and most experienced global service teams. We offer a spectrum of services to help you reap maximum value from your investment while maintaining robust, effective and efficient operations.
