

L-3 ProScan™ 6.4c

X-ray Inspection System

Security & Detection Systems

The innovative L-3 ProScan 6.4c checkpoint X-ray system delivers an unbeatable combination of compact size, light weight, operational flexibility and best value performance for a wide variety of security operations and environments.

Excellent Resolution and Clarity

The advanced imaging capability of the L-3 ProScan 6.4c raises the standard for small-sized X-ray screening systems and delivers an array of features that give operators the information they need to clear suspicious items.

- X-ray source optimized to deliver superb penetration, image resolution and clarity
- Best Image First™ feature automatically selects and presents the optimal view, enhancing throughput by reducing repetitive image adjustments
- TRI-MAT imaging allows operators to easily distinguish between organic/inorganic/metallic materials
- User-friendly image analysis tools include continuously adjustable contrast, sharpening and color overlay for maximum detection capability

Flexible Operational Configurations

The L-3 ProScan 6.4c can be tailored to meet a range of needs.

- User configurable interface on flat screen multi-touch display allows user configuration of preferences.
- Bi-directional operation allows the system to be incorporated, without modification, into environments that require two-way screening such as mailrooms and loading docks
- Customizable user-defined Image Archiving (IA) stores over 400,000 images internally.
- Optional external storage provides additional capacity

ClearView Networking Compatible

L-3's ClearView is a networking solution for streamlined, centralized monitoring; alarm escalation; management reporting; system management and complementary sensor integration.

Outstanding Service and Supports

Recognized worldwide for our commitment to customer service, L-3 fields one of the industry's largest and most experienced global service teams. We offer a spectrum of services to help you reap maximum value from your investment while maintaining robust, effective and efficient operations.
